About Ziprak Enclosures

Founded in 2017 by Jeet Hassani, Ziprak Enclosures has quickly established itself as a trusted manufacturer, wholesaler, and retailer of high-quality server racks and network enclosures. Based in Ahmedabad, Gujarat, we specialize in designing and producing a wide range of durable and efficient server racks tailored to meet the evolving needs of IT infrastructure and data center management.

At Ziprak Enclosures, we are committed to delivering innovative and reliable solutions that help organizations organize, protect, and optimize their critical server equipment. Our product portfolio includes wall-mounted racks, floor-standing racks, outdoor networking racks, DVR racks, and custom enclosures, all engineered with precision and built to last.

Our manufacturing facility is equipped with advanced machinery and a skilled workforce dedicated to maintaining the highest standards of quality and craftsmanship. Since our inception, we have focused on combining robust design with competitive pricing and responsive customer service to ensure complete client satisfaction.

Driven by a passion for excellence and continuous improvement, Ziprak Enclosures aims to be a leading name in the server rack industry, serving customers across India and beyond. We believe in building long-term partnerships by delivering products that add tangible value to your IT-infrastructure.

Ziprak make DVR and ECO Racks

Ziprak DVR Racks are specialized enclosures designed to house and organize DVR systems, typically used in surveillance and security applications. These racks provide a secure and structured environment for DVR equipment, such as:

- Digital video recorders
- Surveillance monitors
- Switchers and distribution amplifiers
- Power supplies and other related equipment

2U Rack

3U Rack

ZIP 4U ECO Rack

Ziprak ECO Racks are a sleek and practical solution for managing network equipment in tight spaces. By utilizing vertical wall space, these racks help keep floors and shelves clear, reducing clutter and improving airflow. They're perfect for:

- Small offices or home offices
- Network closets or server rooms with limited space
- Areas where equipment needs to be secured and out of the way

ZIP 6U ECO Rack

Sizes Available

Height	Width	Depth
4U, 6U, 9U	520mm	400mm

With features like cable management and secure mounting, wall-mount racks keep equipment organized, accessible, and protected.

Ziprak make Wall-Mount Racks

Ziprak Wall-mount network racks are compact, space-saving enclosures designed to house network equipment, such as switches, routers, and patch panels, in a secure and organized manner. They're ideal for:

- Small offices or network closets with limited floor space
- Areas where equipment needs to be kept out of the way
- Environments requiring easy access and management of network equipment
- CRCA 0.9mm to 1mm used in all Wall-Mount Racks
- Cable management options for organization
- Polyester Epoxy Powder Coating for surface protection
- Security features to protect equipment
- Easy installation and mounting options

ZIP 4U Rack

ZIP 6U Rack

Sizes Available

Height	Width	Depth
4U to 17U	550mm	450mm
	600mm	600mm

Ziprak Wall-mount racks are a practical solution for keeping network equipment organized, secure, and easily accessible.

Ziprak make Network Racks Floor Standing

Ziprak Floor-Standing Network racks are robust, freestanding enclosures that provide a secure and organized environment for housing network equipment, servers, and other devices. These racks offer:

- Ample space for equipment installation
- Cable management options for organized wiring
- Ventilation features for improved airflow and cooling
- Security options to protect valuable equipment
- Flexibility for customization and upgrades

ZIP 15U FS Rack

Floor-standing racks are ideal for data centers, server rooms, and network closets, providing a reliable and scalable solution for managing complex network infrastructure.

ZIP 32U Network Rack

**Customized Solutions also Available*

Ziprak make Server Rack Floor-Standing

Ziprak Floor-standing Server Racks with 1000mm - 1200mm depth provide ample space for housing and organizing servers, storage systems, and network equipment. These racks are designed to accommodate:

- Deep servers and storage systems
- Complex cabling and wiring configurations
- Enhanced cooling and airflow management
- High-density equipment installations

The 1000mm depth allows for flexibility in equipment configuration, making these racks suitable for data centers, server rooms, and other environments where space and cooling are critical considerations.

Material: CRCA MS Steel 1.2 - 1.5mm

Surface Protection: Polyester Epoxy

Powder Coating
